

FFBT EVO

Long loaf moulder for French “baguettes”

FFBT long loaf moulder is suitable for making French bread such as “baguettes”, “petit-pains”, “parisiennes” and – in wider terms – loaves and small loaves from high hydration dough requiring a very careful processing.

Standard features

- Aluminium alloy and steel structural frame painted with double anti-corrosion cycle and epoxy powder coating (suitable for food contact).
- Thermoformed ABS side outer paneling and control panel.
- Laminating of dough through two non-stick material-coated cylinders, rolling up through a mesh rolling up conveyor belt, extending of loaves through two wool-felt conveyor belts with opposite motion.
- Wool felt-coated chute for collection of loaves, foldable upwards.
- Laminating thickness and loaf length adjustment through micrometric steering.
- Very noiseless driving belts.
- Output performance: dough pieces ranging from a weight of min. 80 g up to max. 1000 g; approximate max. output: 1500 pieces/h (FFBT EVO)

Configurations

- FFBT EVO: Version for manual loading

Options

- Standard trolley: painted steel tubular support mounted on wheels

MODELS

FFBT EVO	Long loaf moulder for “baguettes”, manual loading
